

Adding value with TASCSC

Five Key Benefits that TASCSC delivers for your business:

1. Ensuring Feed & Food Safety

Feed & Food Safety are critical to ensure protection of both consumers and the livestock industry. TASCSC ensures this safety through fully up-to-date standards that are audited by technically competent auditors for your business.

2. Ensuring your business is compliant

The TASCSC standard meets all the UK and EU Feed & Food safety requirements. This means your business will be assured to be fully compliant in these areas.

3. Meeting customer requirements at home and abroad

Customers require an assured feed and food supply chain. Compliance with the TASCSC Standard ensures this chain is maintained. TASCSC also has 'mutual recognition' with other EU schemes which secures the chain for export.

4. Meeting Government requirements

TASCSC has 'earned recognition' with UK Government which means that fully TASCSC compliant businesses have a lower risk rating. This results in a lower level of visits from enforcement authorities.

5. Allowing investment for the future

By being fully TASCSC compliant you can plan for the future safe in the knowledge that your business meets all the TASCSC standard Requirements.

Adding value with TASCC

Key areas where TASCC supports your business:

1. Up-to-date Standard

The standard is reviewed continually by industry and stakeholder professionals. This ensures your business has the latest information regarding the legislation and standards for feed & food safety.

2. Use of on-line tools

TASCC has a number of on-line tools including assurance checker, various document templates, haulage inventory, i-learning, sensitive and exclusion list etc which all help to manage your business.

3. Fully competent auditors

All auditors carry an ID card which proves they have the relevant training and experience to audit your business. Auditors are continuously kept up to date.

4. NEW on-line portals for your audit information

NEW portals allow you to view your audits, non conformances and to prepopulate information regarding your audit. This will result in a more effective audit on your premises.

5. Linked insurance offer

If you are a fully TASCC compliant business you are eligible for a discount from JELF Insurance as you are viewed as a lower insurance risk.
