

Do you keep birds (even as pets)?

OUTBREAK OF HIGHLY PATHOGENIC AVIAN INFLUENZA 2022/23

Important information – Please read and take action

There are **actions** you need to take if you live within 10km of an infected premises. Check the interactive map now!

Contact us immediately to register your birds!

Even if you have less than 50 poultry or birds, we need to know about your flock.

Your help is required in the control of avian influenza. The information you provide will not only help to protect your birds from the disease, but also those kept by others in your area.

Email your contact details to surveillance@apha.gov.uk or phone us on **03300 416 589** (Lines open 8:30am – 5.00pm Monday to Friday)

Our team will complete a brief questionnaire with you and provide more information about the current outbreak.
